

Death comes as a last resort  
But we see books, but we think we are  
Going to be alive for a lot of years  
I look at this book and it says the gay science  
There is no science everything else besides that  
I don't care about  
And it's going to be kinda awful when it all ends  
But I know it'll end  
I don't want to  
I don't think about that

Night comes every night  
I think the day is a dream  
Everything else is a nightmare  
I speak this in a high-pitched voice  
I laugh out loud at myself
